Nodes Travels

White-label travel booking software you own

A product of Code Craft · nodestravels.com

01

What it is

Nodes Travels is self-hosted, white-label travel booking software. You get the full source code of a working travel website and back office, licensed to your domain, and run it under your own brand.

02

Booking engines

- Flights: live Duffel and LiteAPI search, cheapest fare shown, tickets after payment
- Holiday packages and Umrah from the package builder
- Adapter code for Booking.com Demand, Viator, Distribusion, Busbud and Widgety
- Hotels: live LiteAPI rates with prebook and confirmation
- Trains, buses, cabs, ferries, visa and insurance from your own price list

03

Payments

- UPI direct to your own account
- Failover between gateways, only configured methods shown
- Razorpay, PayU, Stripe, PayPal, PayGlocal and OpenNode adapters
- Payment links with invoice PDF and e-signature

04

B2B and growth

- Agent registration with approval and a B2B price channel
- Wallet, loyalty points, affiliate links
- Partner API with hashed keys
- Offers, coupons, blog, newsletter, SEO tools, ads slots

05

Back office

- Bookings, refunds record, resend and export
- Site settings, legal pages, email templates, media
- Customers 360, leads, reports with CSV
- Users, two-step admin sign-in, activity log, backups

06

Mobile apps

Native iOS and Android source (Expo / React Native). Branding, modules, banners and maintenance mode come from your admin at runtime; checkout hands off securely to your website.

07

Themes

- Classic: Bright, friendly, conversion-first (included)
- Luxe: Bold, dark and premium (add-on)
- Minimal: Quiet, typographic, fast (add-on)
- Corporate: Clean, calm and trustworthy (add-on)
- Trail: Outdoors and adventure (add-on)

Editions (one-time licence)

- Start-up: $499, 1 domain, 6 months updates
- Enterprise: $2,999, 5 domains, 24 months updates
- Agency: $1,299, 2 domains, 12 months updates

09

Launch in four steps

- Choose an edition and receive your key
- Activate your domain in Admin → Licence
- Upload to any Node.js 20+ host and add your keys
- Add suppliers, gateways, branding and go live
